Secondary School Certificate

Chattogram Residential School & College

Grade: 4.22 out of 5.00

2017 -- 2018

## SUMMARY

---

Hi. This is Joynab . MY family and friends call me Zainab. I'm 20 years old. I'm a Bangladeshi and was born in Kuwait. . I'm pursuing under graduation in Computer & Communication Engineering (CCE). I love to read , learn and travel.

I often wonder how I would have lived my life during various times and circumstances. One of the most significant benefits of reading is transporting yourself to different time periods and experiencing different cultures. Reading improves the imagination.

Travelling is my hobby because it allows me to explore new cultures, meet new people, and gain new experiences. Travelling allows me to adapt to new situations and use my organization and planning skills to ensure I enjoy to the fullest.

*Throughout my life, I have developed this art of being able to communicate with anyone at any given time.*
